

## MATERIAL SPECIFICATION SHEET : Insertion Rubber

<b>POLYMER QUALITY</b>	<b>NATURAL COMMERCIAL INSERTION</b>
GRADE	N66
HARDNESS	70° SHORE A
S.G.	1.55g/cm <sup>3</sup>
TENSILE Mpa	4
ELONGATION(%)	---
TEAR STRENGTH	12N/mm
COMPRESSION SET	43%
OPERATING TEMPERATURE	-20°C - +70°C

The Tensile Strength & Tear Strength applies to the rubber only and would be increased by the inclusion of an insertion, the degree of improvement depending on the type of scrim used.
